Operating Systems: Windows, Ubuntu, Linux Mint, Kali Linux

Featured Projects

AquaZ Engineering (Corporate Website)

<https://aquaz-eng.com>

- Designed and developed a modern corporate website for a waterproofing and geosynthetics engineering company.
- Built responsive, SEO-friendly pages to showcase the company's services, projects, and industry expertise.
- Optimized website performance, accessibility, and user experience across desktop and mobile devices.
- Implemented a scalable frontend architecture with clean, maintainable code and modern UI components.

Technology Craft (Company Portfolio)

<https://technology-craft.com>

- Developed the official company website to showcase services, solutions, and the company's profile.
- Designed responsive user interfaces focused on usability, accessibility, and performance.
- Built a scalable frontend architecture to support future business growth.
- Implemented modern UI components using React and Tailwind CSS.

Ticketing System (CRM)

<https://tickets.technology-craft.com>

- Developed a CRM system to streamline internal task management and team collaboration.
- Implemented secure user authentication and role-based authorization.

- Built task management, ticket tracking, and status management modules.
- Designed a clean, user-friendly interface with a scalable application structure.

Threadix (Full-Stack E-Commerce Platform)

<https://threadix-store.vercel.app>

- Built a full-stack e-commerce platform from scratch using modern web technologies.
- Developed product management, shopping cart, authentication, and order management features.
- Integrated RESTful APIs for products, users, and order processing.
- Focused on responsive design, performance optimization, and code maintainability.

Elhoda (E-Commerce Website)

<https://elhodah.vercel.app>

- Developed a responsive e-commerce website with reusable React components.
- Improved user experience through optimized layouts and responsive design.
- Built scalable frontend architecture following modern development practices.

Frontend Projects Collection

- Rock, Paper, Scissors Game
- Clothing Store Landing Page
- Authentication System
- Multi-Step Form
- Calculator
- Todo List Application
- Advice Generator (REST API)
- REST Countries Explorer (REST API)

Education

Higher Institute for Management Information Systems

Bachelor's Degree in Information Systems

Nasr City, Cairo, Egypt

Professional Experience

IT Support Engineer – Beverly Hills Egypt (SODIC)

- Provided first-line technical support for hardware, software, and network-related issues.
- Assisted in configuring and maintaining switches, routers, and firewall policies.
- Supported CCTV surveillance systems and access control solutions.
- Diagnosed and resolved connectivity, hardware, and operating system issues.
- Collaborated with the IT team to maintain reliable and secure enterprise infrastructure.

IT Supervisor | Network Administrator – Total FM Porto Matrouh (Amer Group)

- Supported daily IT operations across network and system environments.
- Configured user accounts, network devices, and access permissions.
- Maintained CCTV and access control systems for operational security.
- Performed preventive maintenance and troubleshooting for network infrastructure.
- Ensured system availability by resolving hardware, software, and connectivity issues efficiently.

Soft Skills

- Analytical Problem Solving
- Team Collaboration

- Effective Communication
- Time Management
- Adaptability
- Fast Learner
- Critical Thinking
- Attention to Detail

Languages

- Arabic — Native
- English — Professional Working Proficiency

Additional Information
